

IBM Data Analyst

Module 6 Live Session

WELCOME: GETTING STARTED

Welcome to the live class discussion. Follow the steps below to get started:

Step 1: Click on the speaker icon on the top left to enable your audio.

Step 2: Click the speaker dropdown arrow on the right of the icon and set your volume to 100% or High.

Step 3: Click on “Meeting” in the top left corner and run the “audio setup wizard” to test your audio volume. Select your microphone and test your microphone volume.

Step 4: If you would like to ask a question, post it in the chat.

WELCOME: GETTING STARTED

Important points to note

If you get disconnected, click the URL to the meeting room on the Online Campus to re-enter the main room.

The chat function is located on the bottom right of your screen.

THE PURPOSE OF LIVE SESSIONS

The purpose of a live session is to give you a chance to engage with a live demonstration and discuss the module content in real time with your fellow students and Tutors.

THE PURPOSE OF THIS LIVE SESSION

A demonstration of:

- How to apply SQL skills to analyze real-world datasets using relational database concepts

Building on the work completed throughout this module, this live session will demonstrate:

- Practical techniques for querying, joining, and summarizing data using SQL within a real-world scenario
- How SQL can uncover insights that inform data-driven decisions in public service and community planning

This session highlights how SQL connects and analyzes multiple datasets to generate insights that support decision-making.

CONSOLIDATION AND CONCLUSION

Thank you for engaging with this session.

Please indicate if you have any further questions using the chat function.

THANK YOU FOR JOINING!

This live session has come to an end.

The recording of this session will be made available on the Online Campus.

Please feel free to continue the discussions in the discussion forums.

Thank you for joining!
