

IBM Data Science Module 4 Unit 5 Live session

Learning outcomes:

LO1: Define SQL and database management systems.

LO2: Execute foundational SQL statements.

LO3: Explore relational databases.

LO4: Practice creating, modifying, and deleting tables in SQL.

LO5: Refine query results using string patterns, sorting, and grouping.

LO6: Execute in-built SQL functions, subqueries, and select statements to access data from multiple tables.

LO7: Access and analyze datasets using Python and SQL.

LO8: Analyze multiple real-world datasets using SQL.

In this live session, you will have the opportunity to engage directly with your tutors and peers in a collaborative learning environment. You are also encouraged to share your work, ask questions, and explore ideas connected to the module content.

The session will focus on demonstrating how to apply SQL skills to analyze real-world datasets. This live walkthrough will use the same datasets and task structure outlined in the preceding activity, providing clarity on best practices and common pitfalls.

You will also review the dashboard activities completed in Looker Studio and discuss how the skills demonstrated align with real-world data analysis tasks.

During the session, you are encouraged to ask questions, share your thoughts, and discuss any relevant topics. These sessions aim to foster collaborative learning and an interactive exchange of ideas. Be prepared to engage openly with your peers and tutor.

What to expect

In the live session, the tutors will guide you through the step-by-step process of completing a hands-on activity and discuss related topics. You will be invited to contribute via the live chat where you can post your questions and experiences of engaging with the activity.

You can join the session via the Zoom LTI in the navigation bar.

Reminder:

It is important to have earphones and a microphone (and quiet surroundings) to participate in the session. You are advised to log in to the session 10 minutes early to

enable your audio and visual settings and to test your connection before the session begins.

For guidance on how best to conduct conversations and interactions during live sessions, please review the live session etiquette guide before the session.
