Title: Data analytics

Content to appear on the OLC:

In this unit's activity, you practiced applying data analytics tools and processes to forecast and plan inventory, reinforcing concepts of data storage, processing, and visualization.

Live sessions provide you with an opportunity to engage with your tutors and peers. In this live session, you'll receive a demonstration of the unit's activity. Through the demonstration, you'll gain clarity on the data analyst's role and gain further experience working with the various data structures, file formats, and languages that underpin effective analysis.

During the session, you're encouraged to ask questions, share your thoughts, and discuss any relevant topics. These sessions aim to foster collaborative learning and an interactive exchange of ideas. Be prepared to engage openly with your peers and tutor.

You can join the session via the Zoom LTI in the navigation bar.

Reminder:

It's important to have earphones and a microphone (and quiet surroundings) to participate in the session. Log in to the session 10 minutes early to enable your audio and visual settings and to test your connection before the session begins.

For guidance on how best to conduct conversations and interactions during live sessions, please review the live session etiquette guide before the session.
